FIVE THINGS YOU'RE DYING TO KNOW ABOUT LESBIAN SEX

Before I ever had sex with another female, my mind couldn't stop fixating on what exactly it was like to please and be pleased by another woman. I'm assuming that's a pretty normal thing to happen before sex anyways, but I wasn't just having sex. . . I was going to be having sex with another female. I could not tell you the amount of times I found myself day dreaming - mouth wide open, and eyes wandering off – to the thought of my face buried between a females breast while she's sitting on top of me, straddling me and I'm smelling the sweet smell of her skin so close. Part of me (the very large part of me) was excited for what was to come now that I had officially come out as a lesbian . . . the other part of me however was nervous with the realization that I had no idea what I was doing and the only thing I had to base it off of was movies, TV and, videos that you could find on the internet.

If you're dying to know rather or not what you see in the films is anything like real sex for two females my best answer for you is yes, only more than likely, its better off of camera. I feel like most of the time, the questions I receive from people about how I have sex with other lesbians are all the questions I wondered for myself before I started actually having sex with females.

For instance, scissoring is a real thing and yes it feels fucking amazing. If you're not familiar with this term – to narrow it down for you – It ultimately leads to two women intertwining legs and rubbing their clits together; God the mental stimulation is wild. Before you even ask, there is no assigned gender roles to who is doing what. Usually if I'm making out with someone and we're both turned on, hands start touching bodies, and one thing leads to another before realizing it we're naked and have our fingers inside of each other. Just to quickly touch up on this – yes, this is partially what we consider to be "sex." Which should answer the biggest question of "what is lesbian sex" anyways.

Lesbian sex. What a subject to write about. I swear, I feel like I've written about this before but you really cant define it as just one simple thing. It could be talked about for hours and if you ask me it surely can be explored for hours. Do you want to know if lesbian sex is better than sex with a man? Clearly, I have a biased opinion . . . but the easiest way to find out is to ask all of your straight girlfriends why they end up being so curious to explore their sexuality with us.

Lesbian sex is just as satisfying as straight sex and in all positions. A big reason I became nervous when "switching" teams from having sex with men to women was because of the possible lack in variety of what it could bring. Boy, was I wrong. Yes, lesbians can have doggy style sex. We can do front facing cowgirl, back facing cowgirl, put us on our sides . . . you say it, we could do it – and no, once again, these don't require toys.

Oh, the things you're dying to know about lesbian sex. Aside from us having better orgasms? Lasting longer. . . Knowing more knowledge on how to please each other . . . we're lucky to start round two probably faster than straight couples that's for sure but one big misconception towards lesbians having sex is that we are the same - so we like the same things. Wrong. That is not right at the least bit. Let's be real for a minute, if you've had sex with more than one woman (as I'm sure you have) you are aware that different things worked for different women: Lesbians are the same. Just because we both have breast and enjoy the pulsing of something against our clits . . . we don't always know what the other will be into. I may not know everything when it comes to sex with women, but I do know that I'm typically always dying to learn more about each female that I'm touching . . . I'm always dying to know more about sex in general and definitely always dying to know more about what could be better.

'Lesbian Sex'

Returns with a New Volume!

Girlfriends Films is pleased to announce the return of Dan O'Connell's acclaimed series Lesbian Sex with the release of Lesbian Sex Volume 18. According to the director, the concept of the *Lesbian Sex* series is much different than anything else *Girlfriends Films* or anyone in the adult entertainment industry has ever done. "This is the only *Girlfriends* series that does not feature a fictional story line," O'Connell explains. "This is more of a real-life documentary that gives a true look into the lives of the performers. Rather than following a script, each pair of girls has a conversation regarding their backgrounds, early sexual history, experience in the adult business, and their favorite kinds of lesbian sex. Then, it is on to the bedroom to back up their talk with action."

Dan O'Connell adds that the concept of real, unscripted interviews is something he has long enjoyed as a way to give the public a pure, genuine look at the people making adult films. "After long enduring the general public's continual negative misconceptions about our business and performers – something that has recently been all too evident in the Stormy Daniels saga – I devised this series years ago for the sole purpose providing a realistic look at the women who perform for *Girlfriends Films*. It is basically a counterattack on the unfounded generalities with which our industry and performers are thoughtlessly mislabeled. Getting the public to change its perception is pushing the bus uphill, of course, but I feel strongly about this."

When it came to casting the film, the director was excited to welcome several notable and award-winning adult film actresses back to the *Girlfriends* set. First, he paired busty brunette adult superstar, and adult film director, Angela White with statuesque blonde Giselle Palmer. "I was aware that Angela White and Giselle Palmer had long been itching to work with each other. Due to her popularity, one has to book Angela far in advance and I made sure to do so. Whenever I see Angela perform on a *Girlfriends Films* set, I am reminded why she won just about every award this year. Giselle is also a great performer and has the greatest orgasm reactions."

Whenever I see Angela perform on a *Girlfriends Films* set, I am reminded why she won just about every award this year. Giselle is also a great performer and has the greatest orgasm reactions.”

O’Connell also brought in adult megastar Romi Rain for her first *Lesbian Sex* interview-style production. “Along with being one of the prettiest girls to ever grace our business, Romi Rain is another award winner and for good reason. I can’t think of another performer who puts more energy into a scene. Every time she’s on our set, she mentions how much she desires girls who really like girls. With that in mind, I decided to match her with Blair Williams, another high-energy, over-sexed performer. That was quite a scene, of course.”

The next pairing matched two veteran *Girlfriends* performers, platinum blonde Aaliyah Love and chesty redhead Lauren Phillips. Despite having appeared in hundreds of *Girlfriends* scenes between them, and each playing a role in the ‘Messed Up!’ miniseries of *Lesbian Psychodramas*, this was the first pairing of the two in a GFF production. “Aaliyah is always one of the most animated and interesting people to listen to,” he describes, “and it’s always a pleasure having Lauren Phillips on set. The fans are really going to like this one.”

For the fourth scene, the director let blonde starlet, Scarlett Sage, take the lead when it came to casting her co-star, and the set-up reads like a Hollywood movie. “Scarlett Sage wanted to partner up with new girl Athena Faris. I didn’t know the back-story until their conversation, which will be included in the film, but Scarlett found Athena at a restaurant where she was working. Athena had never had sex with another woman before and Scarlett took care of that, eventually getting Athena into the industry. Scarlet [also] described her first sexual interaction with a girl, a lesbian at her school. Afterward, the girl immediately outed Scarlett to the student body, which kept Scarlett from exploring any more same-sex relations until after graduation.”

As for the relationship between Sage and Faris he notes, “They continue to be gal pals outside of work, so they are quite well practiced.” O’Connell adds, the girls put that practice to good use on the set of *Lesbian Sex 18* as well. “They put on a grand display with amazing kissing throughout the scene.”

[Lesbian Sex 18](#) is currently available for DVD purchase on the *Girlfriends Films* website and in stores nationwide where adult films are sold.

TANA LEA PENETRATES YOUTUBE WITH 'WATCHING MY OWN PORN'

Emerging star Tana Lea, star of *Please Make Me Lesbian 16* and *Secret Lesbian Diaries 6*, is making a splash on social media with her all-original YouTube videos called 'Watching My Own Porn.' The adult film performer has filmed and posted videos of herself watching two episodes of her performances in Girlfriends Films productions.

(with Bridgette B. in *Please Make Me Lesbian 16*)

We caught up with Tana to ask her a few questions about her new videos:

GFF: What gave you the idea of recording you, watching yourself in a GFF film?

TL: Just my reactions to a lot of things in general are usually pretty funny, but I always watch my scenes and thought sharing how I actually see myself would be a cool, personal experience for my fans.

GFF: How did you feel watching yourself? Is it what you expected?

TL: I love watching myself. I don't know I'm sure there's a Fetish name or something from being turned on from watching yourself. I have that. Lol whatever it's called. I love seeing the other persons reaction to what I'm doing. Both of my scenes with Girlfriends Films that I've done the reaction video to have been hot as fuck. I was actually pleasantly surprised at what a good lesbian I am.

GFF: What do you like best about G/G scenes?

TL: So far all of the girls I've done GG scenes with are actually into pussy. It's nice to do scenes with girls who like eating pussy, or know how or enjoy it as well. Girlfriends Films always pairs me with women who have been great at being lesbian!

GFF: What has been your favorite part about working with Girlfriends Films?

TL: I love working with B. Skow! He's my favorite! Girlfriends Films also usually always casts me as myself as far as the age or character I'm playing. They let me impromptu my character and script a lot too, which makes the scene way more realistic. Everyone is always so kind and helpful, but every time I go to set I know it's going to be a fun day, and I'll have snacks! B. Skow always feeds me. (Dis hoe gotta eat) also, they think I'm funny, and treat me well.... so I'm a loyal bitch!

GFF: If you could watch yourself doing anything else besides G/G scenes, what would it be?

TL: I would wanna see myself in a blow bang or just a really good close up of one of my infamous sloppy blow jobs. They are pretty fucking wet and wilddddd.
